

American Export Trade With Germany Greater Than Before Outbreak of World Conflict

Figure For 1921 Indicates \$50,000,000 in Excess of Record Year.

IMPORTS NOT SO LARGE

Outlook for Current Year is \$100,000,000 as Compared With \$185,000,000 During Year Immediately Preceding War; Ever Other Nation Shaded.

Whatever may be the general effect of the reparations agreement upon the general trade of Germany it is quite apparent, says a statement by the National City bank of New York, that our sales to that country in the fiscal year 1921 will be bigger than in any year in the history of the trade between the two countries.

Prior to the war we were selling to Germany about \$50,000,000 worth of merchandise per annum, making the highest record in 1915, \$33,000,000, having ranged from \$28,000,000 in 1910 up to \$33,000,000 in 1915, while the figures thus far received on our trade for the fiscal year 1921 indicate that the total of exports to Germany will reach or perhaps exceed \$40,000,000 in the nine months ending with March, 1921, they were \$31,000,000, or more than to any European countries except Great Britain and France, and were running in recent months at over a million dollars a day, suggesting that the total for the 12 months ending with June 30 will probably exceed \$40,000,000 as against the high water mark of \$33,000,000 in 1915.

On the import side the total from Germany in the fiscal year 1921 will probably amount to about \$100,000,000 against \$185,000,000 in the year immediately preceding the war. While nothing has yet been determined as to the effect of the proposed tax of 25 per cent on the value of Germany's exports, there is reason to believe that the merchandise which she is sending to us will total for the fiscal year 1921 about \$100,000,000 in value, the total for the largest available month, March, having been \$1,568,000 as against only \$4,952,000 in February, 1921, thus indicating a rapid growth in our imports from Germany.

The principal articles forming this newly developing trade with Germany are, on the export side, foodstuffs, raw cotton, copper and other manufacturing materials, and on the import side, coal tar dyes, polish chiefly for use as fertilizers, furs, glassware, gloves, musical instruments, sugar beet, seeds, a small quantity of beet sugar, toys, wood pulp and certain cotton manufactures. Of raw cotton the exports to Germany for the nine months for which figures are now available were greater than to any other country except the United Kingdom and amounted in value to \$37,000,000, copper, \$1,000,000 pounds, valued at \$14,000,000 and only exceeded by the shipments to France which were \$15,000,000, while of food her takings were of four which amounted in the nine months ending with March to \$12,000,000, while of wheat and for her takings in the nine months ending with March were approximately \$57,000,000.

Of especial interest are the figures showing the principal articles which we are now importing from that country. Figures of the Department of Commerce show that our imports from Germany in the calendar year 1920 included: \$2,825,000 worth of raw cotton, \$7,084,000 of manure salts, \$2,383,000 of kamite, a fertilizer, \$5,436,000 of beet sugar, \$1,565,000 worth of coal tar colors and dyes, \$3,086,000 worth of furs and \$4,190,000 worth of goods of which dolls and parts thereof were \$1,051,000.

COAL OPERATORS WARNED TO LOOK FOR COAL STRIKE

Counseled by Governor Cornwell to Watch Public's Confidence and Sympathy.

Warning, against the possibility of another coal miners' strike next spring, former Governor John J. Cornwell, of West Virginia, told members of the National Coal Association in convention in New York last week that there is a chance for victory lies in the confidence and sympathy of the American public.

"You must get the public with you," the speaker said. "Put your cards on the table face up. Present your case to Congress and the state legislatures. Don't try to keep anything under cover. If you are going to win this struggle you must have public confidence and public sympathy."

"If you had been left alone—free of government interference—you would have won the last strike more effectively than you did. The public would have settled it for you. If you had been going three weeks more time."

Discussing the possibility of a strike over readjustment of wages, he asserted that the operators were menaced by two "ominous developments." "One of these," he said, "is the desperate efforts being made by the United Mine Workers to organize the unorganized fields, and the other was the statement or declaration made a few days ago that the hard coal and bituminous miners had gotten together and were going to jointly frame their policies and demands."

Coal Lake Road Sold.

NEW YORK, May 25.—The Union Pacific railroad today acquired full ownership of the Los Angeles & Salt Lake Railroad company by purchase of stock and bonds held by former United States Senator William A. Clarke of Montana and his associates.

JOHN CURRY, LUMBER OPERATOR IS CALLED AFTER BRIEF ILLNESS

Stricken in March While on his Way Home from Florida, Where He Had Spent the Winter.

John Curry, 75 years old, a prominent lumberman of Conneltsville, died this morning at 11 o'clock at his home in South Prospect street. His death was not unexpected. His illness dated back to last March.

Mr. and Mrs. Curry had spent the greater part of the winter in St. Petersburg, Fla., and en route home they stopped in Jacksonville, Fla., for a visit at the home of Stanley Jackson. While there Mr. Curry was taken ill of shingles and was brought to his home here as soon as his condition would permit the trip. With the exception of a few days, he had been confined to his bed since returning home and since last Thursday he had been unconscious.

Mr. Curry was the eldest son of Samuel and Sarah Fallows Curry and was born in England in October, 1845. He was given little opportunity to obtain an education, only being allowed four terms of three months each. He was hired out when a small boy to neighboring farmers for six months or more.

On the death of his father in 1858 he was thrown entirely upon his own resources, being a lad of 13 years. He worked among the farmers for a few years, then hired with a cattle dealer and butcher who taught him that trade. He continued working at the butcher business until after his marriage, having in the meantime established in business for himself. In 1877 he became manager of a farm, and in June, 1879 came to America, with his wife and five children. He first settled in the province of Ontario, Can. nine miles north of Toronto, hiring out to a farmer in the summer and in the winter moving to Toronto and working at whatever employment he could secure.

Two years later he came to Pennsylvania, settling at Mount Pleasant where he worked in the coal mines for a short time. He was badly burned in a gas explosion and was obliged to abandon mining. He worked for two years at the coke ovens at Bridgeport, then purchased a farm of 300 acres near Indian Creek, which he cultivated and greatly improved. He continued there for eight years and had considerable lumber on his tract which he converted into lumber and after losing his arm in a sawmill accident he gradually abandoned agriculture and devoted himself entirely to the lumber business. He moved to Hammondville, built a residence, and for three years he engaged in the lumber trade. He moved to Conneltsville and continued in the same business until 1905 when he organized the Curry-Bittner Lumber company, of which he was secretary and treasurer. In 1910, in association with his son, John C. Curry, he formed the lumber firm of John Curry & Son, one of the successful lumber firms of Conneltsville.

May 25, 1887, Mr. Curry was married in England to Miss Isabella Corn and to the union six children were born, three of whom are dead. Mrs. Curry died about 11 years ago and several years later Mr. Curry married Miss Edna May, who with three children, John C. Curry of Conneltsville, Mrs. Hanna Williams of Mercersburg, Pa., formerly of Mercersburg, W. Va. to the first marriage, four brothers, Ralph Curry of Beaver, Pa., who has been at his brother's bedside for the past week; William and Thomas Curry of near New Castle-on-Tyne, England, and Robert Curry, Walsenburg, Col.; 18 grandchildren and seven great-grandchildren survive.

Mr. Curry was a member of the First Methodist Episcopal church of Conneltsville for many years and was one of its most active workers. He was respected and esteemed by all who knew him. Since locating in the United States Mr. Curry had made about five return trips to England. In the death of Mr. Curry Conneltsville has lost one of its most substantial and influential citizens.

The funeral will be at 2 o'clock Friday.

PUBLICITY WOULD STABILIZE COAL INDUSTRY—HOOVER

NEW YORK, May 25.—Stabilization of the coal industry by publicity rather than by extension of existing anti-trust laws, was urged by Secretary of Commerce Hoover in a telegram read today at the opening session of the national convention of the National Coal Association.

"It is my belief that both the coal operators and the public will be better protected by regular, prompt and monthly publication of fundamental facts relating to the coal industry than by extension of legal regulations beyond existing anti-trust acts," read the message.

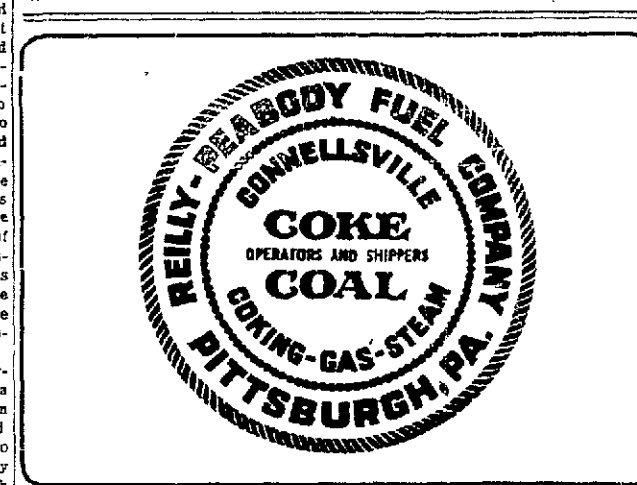

Mr. Hoover added that publicity would go some extent to mitigate extortionate prices and unduly low prices by giving realization to the consumers that there is no fundamental shortage of supply on the one hand and encouraging them to take advantage of the periods of depression in production on the other.

"I do not imagine that publicity is a cure-all to intermittency or any other economic ill," continued the message, "but at least it is an assistant towards sounder and more stable industry."

LIST OF COKE OVENS IN THE LOWER CONNELLSVILLE DISTRICT With Their Owners, Address and Ovens in Blast Corrected to Saturday, May 21, 1921.

CIVIL AND MINING ENGINEER

625 and 627 Fayette Title & Trust Bldg., Uniontown, Pa.

Specialties—Construction of Coal and Coke Plants. Examination and reports on coal properties. Valuations, superintendence, plans, estimates. Mine and property surveys.

Engineer for 40 independent companies in Pennsylvania and West Virginia. Continuous blue print machine used in electric printing department.

Res. Phone 326. Tri-State Phone 585

Guided by Advice of Almanac Student Of Weather, Baltimore & Ohio Veterans Change Date for Second Annual Outing

The date for the Baltimore & Ohio picnic has been changed, it was announced this morning, and the outing will be held two days earlier. "Changed on account of rain" states the truth of the matter in a few words.

John Layton of Washington avenue, a veteran retired engineer of the railroad, studies the almanac very closely and he says the various readings show frequent showers after 10 o'clock on the morning of August 18. Therefore, the committee yielded to the advice of Mr. Layton and the annual picnic will be on August 16.

Ten to 15 Per Cent Cut in Wages of Rail Employees Probable

CHICAGO, May 25.—The rates of pay and classifications established by the Railroad Labor Board's wage award of July 1920 will be used as the basis of reduction on when the board hands down its new wage decision on June 1, it was learned today.

The board has arrived at tentative percentages which will cut the present rates from 10 to 15 per cent, according to the class of employees affected.

When the wage reduction decision is made next week it will follow closely the form of Decision No. 2, which granted the \$900,000,000 increase a year ago. The classifications of employees will remain nearly the same, some slight changes being made in certain clerical divisions.

Pennsylvania Approved.

WASHINGTON, May 25.—Application of the Pennsylvania railroad for a government loan of \$5,700,000 to enable it to meet maturing obligations was approved today by the Interstate Commerce Commission.

JULY 21 DATE FOR ANNUAL OUTING OF FRICK VETERANS

Idle Old Selected as Place at Meeting Here Saturday Night; Officers Re-elected.

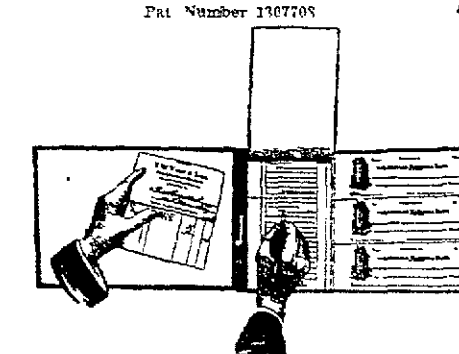

Thursday, July 21, was the date set for the annual picnic of the Frick Veterans association at a meeting of the veterans held Saturday night in the diningroom of the Elks Home in East Crawford avenue. The outing will be held at Idle Old and committees were appointed to make all arrangements. This is an important event to the members of the association, their families and friends, and Idle Old is an ideal place for a day's outing and the attendance this year promises to be larger than ever.

The following officers for the ensuing year were re-elected: President, P. J. Tormay, vice-president John A. Larnhart of Scottsdale, secretary and treasurer, C. B. Franks.

Supper was served and a very enjoyable evening was spent by the veterans.

During the year the association lost two members by death. They were Morris Pignum of Mount Pleasant and John Hensel of Brownfield.

Coal Load for Sale
If you have coal land for sale advertise it in The Weekly Courier.

AT LAST—THE FLAT OPENING CHECK BOOK!
Used rubs the back, out of the way, gives a perfectly flat and even writing surface. No awkward corners, no writing over the "bump," no cramped handwriting.
The stub is ruled for double entry bookkeeping to accord with other account books. Deposits are listed in one column and withdrawals in another. This form greatly reduces unintentional overdrafts.
Samples will be sent to interested banks and business houses if requested or letterhead.
